PERSONAL PROJECTS

RedStore E-Commerce Website
- **Developed a dynamic e-commerce platform using Django** , allowing for seamless product management and order processing through an admin interface, essential features such as a shopping cart
- **Implemented user authentication** to restrict access to sensitive pages, such as the cart and account management, ensuring a secure shopping experience.
- **Enabled full access to the website's features** post-login, providing a personalized experience for authenticated users.
- **Ensured mobile responsiveness** , delivering an optimal browsing experience across various devices, including smartphones and tablets.
- **Deployed the website on PythonAnywhere** , making it accessible at www.rinshad.pythonanywhere.com

Personal Portfolio Website
- **Developed and pushed to GitHub** , with deployment on a custom domain: www.rinshad.live
- **Built using HTML, CSS, JavaScript, and Bootstrap** , ensuring a modern and visually appealing design.
- **Integrated responsive design principles** to provide an optimal viewing experience across various devices, from desktops to mobile phones.
- **Implemented dynamic routing** for seamless navigation between different sections of the website.
- **Developed a contact form with validation and email functionality** , allowing visitors to easily get in touch.
